Cause of loss (as stated)	Storm and water damage (as stated by customer)
Location of damage	Entire ground floor - living room, kitchen, laundry
Police event number	N/A
Weather / external event	Heavy rain over 48 hours across the Northern Rivers; local creek rose overnight

3. Description of incident (customer's words)

After two days of very heavy rain the creek behind our property came up overnight. When I woke up there was water through the whole ground floor, about 40cm deep, coming in under the back doors and through the laundry. It went down by the afternoon but left mud everywhere. The carpet, plasterboard on the lower walls, the lounge, fridge and washing machine are ruined. No roof damage, the water came in from outside at ground level. I am staying with my sister at the moment.
